

CHAMPION

Description:

It removes the traffic film, and prevents the deposit of dirt with its anti-static action. It is a perfumed ecological detergent, and generates the separation of phases in settling tanks. The surfactant molecules incorporate the particles of dirt. It is also useful for eliminating insects from car bodies and to clean even very dirty rims.

Directions for use:

Doses: with a dosatron set on 2% and with a nebulizer dilute the product 1:50 in water.

In automatic car wash installation with dosing pump use preferably as is and set on the doses 20gr of product per car, according to the car wash installations and to its conditions of use (speed, chain, type of installation –tunnel or portal-, temperature).

Remarks:

Please follow the instructions on the safety data sheet for the safe handling of the product.

Technical characteristics:

Appearance and color: liquid, fluorescent yellow

Smell: characteristic

pH: 13.68

Flash point: 100°C

Relative density: 1.128 g/cm³

Solubility in water: soluble

Lipid solubility: partially soluble
