

LUMEN 2.0

Description:

Strength and brilliance are at the basis of this alkaline degreaser that cleans and decontaminates rims made with any alloy, aluminium or plastic.

It quickly dissolves and breaks down dirt and ferrous residues, strengthening and intensifying the glossy look of the treated surface.

How does it work?

1. It helps remove mineral residues in hard water, which contains limescale traces.
2. It reduces the surface tension of water. Instead of forming droplets, it slides over the surface, generating a self-drying effect.
3. It creates a protective barrier effect that reduces the formation of residues or stains, to ensure surfaces with a glossy look.

Multi-purpose product: ideal for tunnel, free-standing or manual washing systems.

Also try it on the bodywork of cars and trucks when you want an emollient with a glossy effect!

Directions for use:

- Rims nebulizer: from 1:1 to 1:5 (20%-50%)
- Automatic carwash, pump: 20-30 pulses, pump flow rate 12 lt/h 16-30 ml
- insects nebulizer: 1:20 (5%)
- prewash nebulizer: Cars 1:30 - 1:50. Trucks 1:25 - 1:50.

Warnings:

To handle the product follow the precautionary advice on the safety data sheet.

Technical Features:

Appearance and colour: slightly amber liquid

Odour: characteristic

pH: 13,84

Flash point: >100 °C

Relative density: 1,11 g/cm³

Solubility in water: soluble

Solubility in oil: not soluble

Storage:

Unopened and stored at room temperature away from direct sunlight.

Packaging:
